(Puget Sound Naval Shipyard, Bldg. No. 59)
Farragut Avenue
Bremerton
Kitsap County
Washington

HAER No. WA-116-A

John Stamets, photographer October/November 1993

<u>HAER No.</u>	<u>Description</u>
WA-116-A-1	Context view includes Building 59 (second from left). Camera is pointed ENE along Farragut Avenue. Buildings on left side of street are, from left: Building 856, Building 59 and Building 107. On right side of street they are, from right: Building 38, Building 452 and Building 460.
WA-116-A-2	Elevation view of front (south) side of Building 59.
WA-116-A-3	Perspective view of SW corner of Building 59, showing narrow separation of west side of Building 59 from Building 856.
WA-116-A-4	Detail of two southernmost windows on west side of the 1896 south section of Building 59.
WA-116-A-5	Perspective view of SE corner of Building 59. In distance, note change in the roof line where the 1896 south section of building ends and the 1904 middle section begins.
WA-116-A-6	Elevation view of east side of southernmost end of building. When joined with photo WA-116-A-7, these photos give a virtually complete elevation view of the east side of the 1896 south section of Building 59. Note that the steep angle of view gives the illusion of a flat roof. For a more accurate depiction of the roof slope, see previous photos, including WA-116-5.
WA-116-A-7	Elevation view of east side of building where the 1896 south section (left) joins the 1904 middle section. When joined with photo WA-116-A-6, these photos give a virtually complete elevation view of the east side of the 1896 south section of Building 59.
WA-116-A-8	Elevation view of east side of middle 1904 section of Building 59.
WA-116-A-9	Perspective of east side of north 1922 section of Building 59. Camera pointed NW. Windows at end are seen from inside in photo WA-116-A-11.
WA-116-A-10	Elevation view of the 1922 north end of Building 59.

PUGET SOUND NAVAL SHIPYARD, PATTERN SHOP
HAER No. WA-116-A
Index to Photographs (p.2)

<u>HAER No.</u>	<u>Description</u>
WA-116-A-11	Interior view of first floor of 1922 north section, showing east wall and windows at far north end of building. Camera pointed E. Rear of building is partially visible on far left.
WA-116-A-12	Interior view of first floor aisle in 1922 north section. Camera is pointed south from rear of building. Post at far left is also seen on right in photo WA-116-A-11.
WA-116-A-13	Interior view of individual work benches along west wall of north 1922 section of Building 59. Camera pointed NW.
WA-116-A-14	Machine in north 1922 section of Building 59. Machine is 24" Jointer made by Oliver Machinery Co. Camera pointed E.
WA-116-A-15	Interior view of first floor aisle in 1904 middle section. Camera pointed south from near juncture with 1922 north section.
WA-116-A-16	Interior view on first floor in 1904 middle section, east side, showing various machinery, including Post Lathe (Bull Lathe) with large wheel and smaller lathe on left. Camera pointed S on east side of building. See photos WA-116-A-17 through WA-116-A-20.
WA-116-A-17	Machines in middle 1904 section of Building 59. Camera is pointed SW. Large wheel is part of Post Lathe, or Bull Lathe, manufactured by Oliver Machinery Co. Machine at left is a smaller Lathe made by Yates American Machinery Co., also seen in photo WA-116-A-20.
WA-116-A-18	Post Lathe. View of wheel, motor, belt, casing and grooved steel base. Camera pointed NW. See photo WA-116-17.
WA-116-A-19	Post Lathe. View from opposite side of that in WA-116-18. Camera pointed SSE. Also, see photo WA-116-17.
WA-116-A-20	Side view of Lathe made by Yates American Machinery Co. See photo WA-116-17.
WA-116-A-21	Interior view of first floor aisle in 1896 south section. Camera pointed from far south end of building.
WA-116-A-22	Shop offices with "Plannermen" sign and aisle in 1896 south section. Camera pointed NW.
WA-116-A-23	Interior view of SE corner of first floor of 1896 south section of building, showing windows and column. Camera pointed SE.
WA-116-A-24	Interior view of third floor attic of 1896 south section of building. Note steel truss supports and wooden roof. Top floor round window is seen from outside in photo WA-116-A-2.
WA-116-A-25	Interior view of third floor attic of 1904 middle section showing concrete roof and storage of wooden patterns for ship parts.
